UI - Developer ☁ Expert in Angular, JavaScript

A passionate software engineer around 4 years 5 months of experience in Web application design and development, both technically focused and customer oriented. Wish to exhibit my technical and analytical skills in any challenging and committed environment with professionals.

PROFILE SUMMARY

Talented and results-driven Angular Developer with 4+ years of experience in designing and developing modern, responsive, and accessible Single Page Applications (SPA). Specialized in Angular (14+), with strong expertise in building scalable, high-performing web applications, implementing component-driven architecture, and optimizing large-scale JavaScript applications for speed and usability.

Proficient in Angular Material, RxJS, NgRx, D3.js, and other modern JavaScript libraries, with proven experience in creating intuitive, user-centric interfaces. Adept at working in Agile environments, collaborating with global stakeholders, and delivering solutions that align with both business and user needs. Skilled in test-driven development (TDD), with hands-on experience using Jasmine and Jest frameworks to ensure high-quality, maintainable, and reliable code.. Additionally, hold 1 year of backend development experience using Java Spring Boot and MongoDB scripting, enabling end-to-end application development and integration across frontend and backend systems..

TECHNICAL SKILLS

- **Frontend** : Angular (17+), AngularJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular Material, D3.js
- **State Management** : RxJS, NgRx
- **Backend** : Java, Spring Boot, MongoDB, RESTful APIs, SQL
- **Testing** : Jasmine, Jest, Karma
- **DevOps & Tools** : Git, GitHub CI/CD, GitLab CI/CD, Jenkins, Docker, AWS, Webpack, SonarQube
- **IDE & Platforms** : VS Code, IntelliJ, Eclipse
- **Methodologies** : Agile, TDD, Micro Frontends (MFE), Accessibility (WCAG), SEO Optimization
- **Backend** : Java, Spring Boot, MongoDB, RESTful APIs, SQL

AREAS OF EXPERTISE / UI DEVELOPER

HappiestMinds Technologies

PRESENT

- Over 4 years of experience in Web application development with expertise in JavaScript, Angular, MongoDB, SQL.
- Extensive background with UI development, and have outstanding knowledge of the systems / components of front-end development with HTML /HTML5, CSS/CSS3, JavaScript, Typescript, Bootstrap, Angular17+.
- Experience applying the latest development approaches including event-driven applications using Java Script, JSON, and Hands on Experience in ES6.
- In-depth experience in designing and implementing UI services layer for web applications and Experienced with Object Oriented Programming.
- Knowledge of the international web standards and protocols and experience to work within compliance and ability to develop and design websites to make them functional.
- Extensive experience in building Single Page Applications (SPA) using frameworks like Angular and custom MVC frameworks.

- Thorough understanding of CSS principles with a clear ideology for managing maintainable, scalable and cross-browser code.
- Strong experience in using RXJS/NGRX for implementing dynamic webpages where the content can be fetched via API calls, using RestfulAPI.
- SonarQube to enforce coding standards, maintain consistency, and detect potential vulnerabilities in the code
- Expert in designing web applications and web contents utilizing various Search Engine Optimization (SEO) techniques.

ACADEMIC DETAILS

- I have completed my Bachelor Degree from Dr SRK College with 8.23 CGPA

PROFESSIONAL EXPERIENCE

Project #1	Savvas learning Company
Company	HAPPIESTMINDS TECHNOLOGY
Role	Frontend Developer
Duration	june 2023 – Present
Tools	JavaScript, SQL, Git, JSON,Bootstrap, HTML, CSS,java,springboot,MongoDB
O.S	Windows
IDE	VS code
Responsibility	Responsible for developing the UI pages using HTML5,CSS3, AngularJS, ANGULAR, RXJS, NGRx. Created dozens of Reusable components including inputs, dropdowns, and suggestion dropdowns with Angular Material. Developed the application for responsive to different screen resolutions using Bootstrap, CSS media queries and css Flex. Participate in requirement analysis. Created angular MFE which can be used across all the other modules in savvas. Writing MongoDB scripts and building apis using java, springboot. Guiding junior developers and interns, provide technical assistance, and help them grow their skills. Take part in sprint planning, estimating tasks, and tracking progress in Agile development cycles. Performance optimization using Lazy loading and Implement appropriate error handling and feedback mechanisms for API calls and network issues. Working closely with back-end developers, UX/UI designers, product managers, and other stakeholders to ensure the project meets requirements and goals. Doing code reviews to ensure code quality, best practices, and maintainability and Continuously improve and refactor existing code to reduce complexity, improve readability, and optimize performance. Ensure the scalability of the platform.
Summary	Savvas – Realize platform: Contributed to the development of the Realize platform, an integral component of the Savvas Learning suite, aimed at enhancing the digital classroom experience for K-12 education. The application provides an interactive platform for teachers, students, and administrators to access and manage educational content, assignments, and performance analytics and Worked on multiple micro frontends (MFEs) such as class-listing, dashboard, and assessments. In these MFEs, teachers can add students to classes, assign assessments, and allow students to view their scores.. EasyBridge: It provides a set of application services that provide an ability to SSO and synch class, class Rosters between SIS, 3rd party SIS, SchoolNet and RUMBA based applications like PSN, PSN+ for now (and future with other LMS's like OLE and Realize). The main use is to allow our customers to use a single Edcloud: Worked on the EdCloud platform, focusing on managing internal administrative tasks and providing tools for administrators within the Savvas Learning ecosystem. This application is basically used to manage internal admins roles , permissions and workflow where the auto and plus users have access to utilize extra admin privileges and ingestion of the student, teacher and admin data through csv.

Achievements	Team Excellent Award – Recognized for exceptional collaboration and teamwork in delivering key projects on schedule. Insta Award – Honored for quick and impactful problem-solving, significantly enhancing project efficiency. Distinct Contributor Award – Acknowledged as a critical contributor to company initiatives, resulting in measurable improvements. Extra Mile Award – Commended for consistently going above and beyond in responsibilities, ensuring project success. These awards are also highlighted on my LinkedIn profile.

Project #2	Ascend Analytics(ATI-FR modules)
Company	HAPPIESTMINDS TECHNOLOGY
Role	Frontend Developer
Duration	june 2021 – june 2023
Tools	JavaScript,Angular, SQL, Git, JSON,Bootstrap, HTML5, CSS3
O.S	Windows
IDE	VS code
Responsibility	Responsible for developing the UI pages using HTML5,CSS3,Angular and JSON. Created dozens of UI components including inputs, dropdowns, and suggestion dropdowns with Angular Material. Developed the application for responsive to different screen resolutions using Bootstrap, CSS media queries and css Flex. Followed the Test driven policy while writing the code .Developing Highly accessible web page so that differently abled user can use the website efficiently with the help of screen readers. Participate in requirement analysis, design (code & APIs) & development status with customer. Connecting with dev teams in daily calls. Created angular library which can be used across all the other modules in ATI.
Summary	ATI - Assessment Technology Institute is a comprehensive testing and review program designed to provide students with various learning tools that will assist them in learning course content, identifying strengths and weaknesses, reviewing content, improving test taking abilities and ultimately successfully passing the NCLEX for professional licensure. This program is required for sophomore, junior and senior nursing students and a fee is assessed

PERSONAL DETAILS

Date of Birth : 12 May 2000
Nationality : Indian
Father's Name : T satyanarayana
Languages Known: Telugu,English,Hindi

Declaration

I,poojitha, here by declare that the above furnished details are true to the best of my knowledge and belief.
