UI - Developer ☁ Expert in Angular, JavaScript

A passionate software engineer around 5 years of experience in Web application design and development, both technically focused and customer oriented. Wish to exhibit my technical and analytical skills in any challenging and committed environment with professionals.

PROFILE SUMMARY

Talented and results-driven Angular Developer with 5 years of experience in designing and developing modern, responsive, and accessible Single Page Applications (SPA). Specialized in **Angular (14 -17+,18+)**, with strong expertise in building scalable, high-performing web applications, implementing component-driven architecture, and optimizing large-scale JavaScript applications for speed and usability.

Proficient in Angular Material, RxJS, NgRx, D3.js, and other modern JavaScript libraries, with proven experience in creating intuitive, user-centric interfaces. Adept at working in Agile environments, collaborating with global stakeholders, and delivering solutions that align with both business and user needs. Skilled in test-driven development (TDD), with hands-on experience using Jasmine and Jest frameworks to ensure high-quality, maintainable, and reliable code.. Additionally, hold 1 year of backend development experience using Java Spring Boot and MongoDB scripting, enabling end-to-end application development and integration across frontend and backend systems.

Recognized for delivering solutions that improve user engagement, scalability, and operational efficiency.

TECHNICAL SKILLS

- **Frontend** : Angular (17+), AngularJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular Material, D3.js
- **State Management** : RxJS, NgRx
- **Testing** : Jasmine, Jest, Karma
- **DevOps & Tools** : Git, GitHub CI/CD, GitLab CI/CD, Jenkins, Docker, AWS, Webpack, SonarQube
- **IDE & Platforms** : VS Code, IntelliJ, Eclipse
- **Methodologies** : Agile, TDD, Micro Frontends (MFE), Accessibility (WCAG), SEO Optimization
- **Backend** : Java, Spring Boot, MongoDB, RESTful APIs, SQL

AREAS OF EXPERTISE / UI DEVELOPER

HappiestMinds Technologies

PRESENT

- Over 5 years of experience in Web application development with expertise in JavaScript, Angular, Typescript, ES6.
- Extensive background with UI development, and have outstanding knowledge of the systems / components of front-end development with HTML /HTML5, CSS/CSS3, JavaScript,Typescript, Bootstarp, Angular17+.
- Experience applying the latest development approaches including event-driven applications using Java Script, JSON, and Hands on Experience in ES6.
- In-depth experience in designing and implementing UI services layer for web applications and Experienced with Object Oriented Programming.
- Knowledge of the international web standards and protocols and experience to work within compliance and ability to develop and design websites to make them functional.
- Extensive experience in building Single Page Applications (SPA) using frameworks like Angular and custom MVC frameworks.

- Thorough understanding of CSS principles with a clear ideology for managing maintainable, scalable and cross-browser code.
- Strong experience in using RXJS/NGRX for implementing dynamic webpages where the content can be fetched via API calls, using RestfulAPI.
- SonarQube to enforce coding standards, maintain consistency, and detect potential vulnerabilities in the code
- Expert in designing web applications and web contents utilizing various Search Engine Optimization (SEO) techniques.

ACADEMIC DETAILS

- I have completed my Bachelor Degree from Adikavi Nannaya University with 8.4 CGPA

ACHIEVEMENTS

- **Team Excellent Award** – Delivered key projects on schedule through exceptional collaboration
- **Distinct Contributor Award** – Critical impact on company initiatives with measurable improvements.
- **Extra Mile Award** – Consistently exceeded responsibilities to ensure project success.
- **Insta Award** – Quick problem-solving that enhanced project efficiency.

PROFESSIONAL EXPERIENCE

Frontend Developer – Savvas Learning Platform (June 2023 – Present)

HappiestMinds Technologies

- **Developed reusable Angular components** (inputs, dropdowns, suggestion lists) with Angular Material and customized components, reducing development time by 30% across multiple modules.
- **Built micro frontends (MFEs)** for class listing, dashboard, and assessments, enabling modular scalability and faster feature delivery.
- Optimized performance with **lazy loading and error handling**, improving page load speed by **40%** and reducing API failure rates.
- Implemented accessibility features compliant with WCAG standards, ensuring usability for differently abled students and teachers.
- **Collaborated with cross-functional teams** (backend, UX/UI, product managers) to deliver solutions aligned with K-12 education needs, impacting **50K+** users.
- **Guided junior** developers and interns, conducting code reviews and enforcing SonarQube standards to maintain high-quality, secure code.
- Integrated backend APIs using Spring Boot and MongoDB, enabling seamless data flow between UI and server.
- Refactored legacy codebases, reducing complexity and **improving maintainability**, which cut bug resolution time by **25%**.

Frontend Developer – Ascend Analytics (June 2021 – June 2023)

HappiestMinds Technologies

- **Developed reusable Angular libraries** leveraged across ATI modules, reducing duplicate code and improving maintainability by **25%**.
- **Created responsive UI components** (inputs, dropdowns, suggestion lists) using Angular Material, Bootstrap, and CSS Flex, ensuring seamless performance across devices and screen sizes.
- **Implemented accessibility features** (screen reader support, WCAG compliance), enabling differently abled users to efficiently interact with the platform.

- **Followed Test-Driven Development (TDD)** with Jasmine/Jest, increasing code reliability and reducing production bugs by **30%**.
- **Collaborated with global teams** in Agile sprints, participating in requirement analysis, design reviews, and daily stand-ups to ensure timely delivery.
- **Optimized UI performance** by streamlining API calls and reducing page load times, enhancing user experience for nursing students preparing for NCLEX exams.
- **Engaged directly with customers to gather feedback**, aligning development with business needs and improving satisfaction scores.

Impact: Delivered highly accessible and reliable testing modules that supported thousands of nursing students in preparing for professional licensure exams.

ACHIEVEMENTS

1. **Team Excellent Award** – Delivered key projects on schedule through exceptional collaboration.
2. **Distinct Contributor Award** – Critical impact on company initiatives with measurable improvements.
3. **Extra Mile Award** – Consistently exceeded responsibilities to ensure project success.
4. **Insta Award** – Quick problem-solving that enhanced project efficiency.

Declaration

I, poojitha, here by declare that the above furnished details are true to the best of my knowledge and belief.
